O.M.B. NO. 3067-0077 Expires May 31, 1996

ELEVATION CERTIFICATE

FEDERAL EMERGENCY WANAGEMENT AGENCY NATIONAL FLOOD INSURANCE PROGRAM

ATTENTION: Use of this certificate does not provide a waiver of the flood insurance purchase requirement. This form is used only to provide elevation information necessary to ensure compliance with applicable community floodplain management ordinances, to determine the proper insurance premium rate, and/or to support a request for a Letter of Map Amendment or Revision (LOMA or LOMR).

Insuructions for completing this form can be found on the following pages.

STREET ADDRESS (movading Apr., Unit., Sulve season Blag. Number) OR RO. ROUTE AND BOX NUMBER OTHER DESCRIPTION (Lot and Block Numbers, etc.) SECTION B FLOOD INSURANCE RATE MAP.(FIRM) INFORMATION SECTION B FLOOD INSURANCE RATE MAP.(FIRM) INFORMATION Provide the following from the proper FIRM (See Insuructions): 1. COMMUNITY NUMBER 2 PANS. NUMBER 2. SULFIX 4. DATE OF RIPM NORX 5. HIRM ZONE 8. BASE FLOOT ELEVATION IN A Zone, sus eachly 1. A DATE OF RIPM NORX 6. HIRM ZONE 8. BASE FLOOT ELEVATION IN A Zone, sus eachly 1. A DATE OF RIPM NORX 7. Indicates the elevation datum system used on the FIRM and the community has established a BFE for this building site, indicate the community's BFE 1. Indicate the sleptation of the FIRM A SONE 8. FOR ZONE A CONTROL 1. A DATE OF RIPM NORX 6. HIRM ZONE 8. BASE FLOOT ELEVATION IN FORMATION 1. Using the Elevation Certificate Instructions, indicate the diagram number from the diagrams found on Pages 5 and 6 that best describes the subject buildings reference level 1. Section 8. Item 7). SECTION C BURLDING ELEVATION INFORMATION 1. Using the Elevation Certificate Instructions, indicate the diagram number from the diagrams found on Pages 5 and 6 that best describes the subject buildings reference level 1. The top of the reference level from the selected diagram is at an elevation of 1. In the Indiagram number from the diagrams found on Pages 5 and 6 that best describes the subject buildings reference level 1. The top of the reference level from the selected diagram is at an elevation of 1. In the Indiagram in the selected diagram is at an elevation of 1. In the Indiagram in the Indiagram is 1. In the reference level from the selected diagram is at an elevation of 1. In the Indiagram is 1. In the Indiagram

If the community official responsible for verifying building elevations specifies that the reference level indicated in Section C, Item 1 is not the "lowest floor" as defined in the community's floodplain management ordinance, the elevation of the building's "lowest floor" as defined by the ordinance is:	6. The elevation of the lowest grade immediately adjacent to the building is: 1111.5 feet NGVD (or other FIRM datum-see Section 8, Item 7).			
is not the "lowest noor" as defined in the community's floodplain management ordinance, the elevation of the building's "lowest floor" as defined by the ordinance is:	SECTION D COMMUNITY INFORMATION			
2. Date of the start of construction or substantial improvement				

SECTION E CERTIFICATION

This certification is to be signed by a land surveyor, engineer, or architect who is authorized by state or local law to certify elevation information when the elevation information for Zones A1–A30, AE, AH, A (with BFE),V1–V30,VE, and V (with BFE) is required. Community officials who are authorized by local law or ordinance to provide floodplain management information, may also sign the certification. In the case of Zones AO and A (without a FEMA or community issued BFE), a building official, a property owner, or an owner's representative may also sign the certification.

Reference level diagrams 6, 7 and 8 - Distinguishing Features—If the certifier is unable to certify to breakaway/non-breakaway wall, enclosure size, location of servicing equipment, area use, wall openings, or unlinished area Feature(s), then list the Feature(s) not included in the certification under Comments below. The diagram number, Section C, Item 1, must still be entered.

I certify that the information in Sections 8 and C on this certificate represents my best efforts to interpret the data available. I understand that any false statement may be punishable by fine or imprisonment under 18 U.S. Code, Section 1001.

	ADJACENT GRADE		

The diagrams above illustrate the points at which the elevations should be measured in A Zones and V Zones.

Slevations for all V Zones should be measured at the bottom of the lowest horizontal structural member.

Elevations for all A Zones should be measured at the top of the reference level floor.
